

Distance learning: opportunities and reality

Jānis Kosītis

Training Coordinator

NLL Competency
Development Center

COMPETENCY DEVELOPMENT CENTER

- NLL accredited educational institution
- Two programmes accredited for 6 years
- We provide:
 - Training
 - Consultations
 - Cooperation between central regional libraries and training centers in libraries
- Moodle – Tool, to provide quality.

WHAT IS MOODLE?

- Moodle is a **free** and **open-source learning management system** (LMS)
- Developed on pedagogical principles
- Used for blended learning, distance education, flipped classroom

WHY MOODLE?

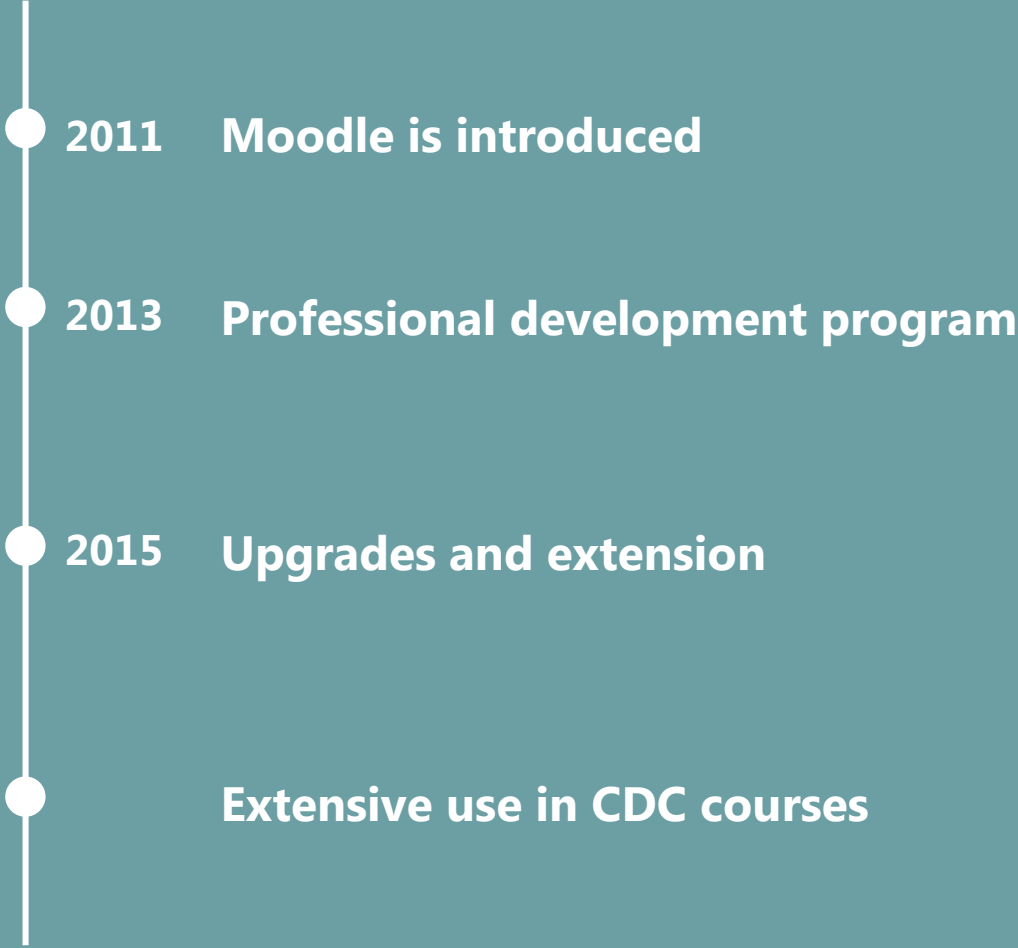

1. Huge **user base**
2. Moodle is very **stable**
3. The development **community** is active
4. Moodle is **extensible**. You can add the modules/plugins you require
5. Moodle is **customizable**. There are many options that can be adjusted to suit your needs.
6. Localized

CHALLENGES

1. Difficult to navigate, for new users
2. Adding modules and plugins
3. Technical know-how
4. Adapting to our needs
5. Analytics
6. Localization

HOW FAR WE'VE COME

Our experience with Moodle

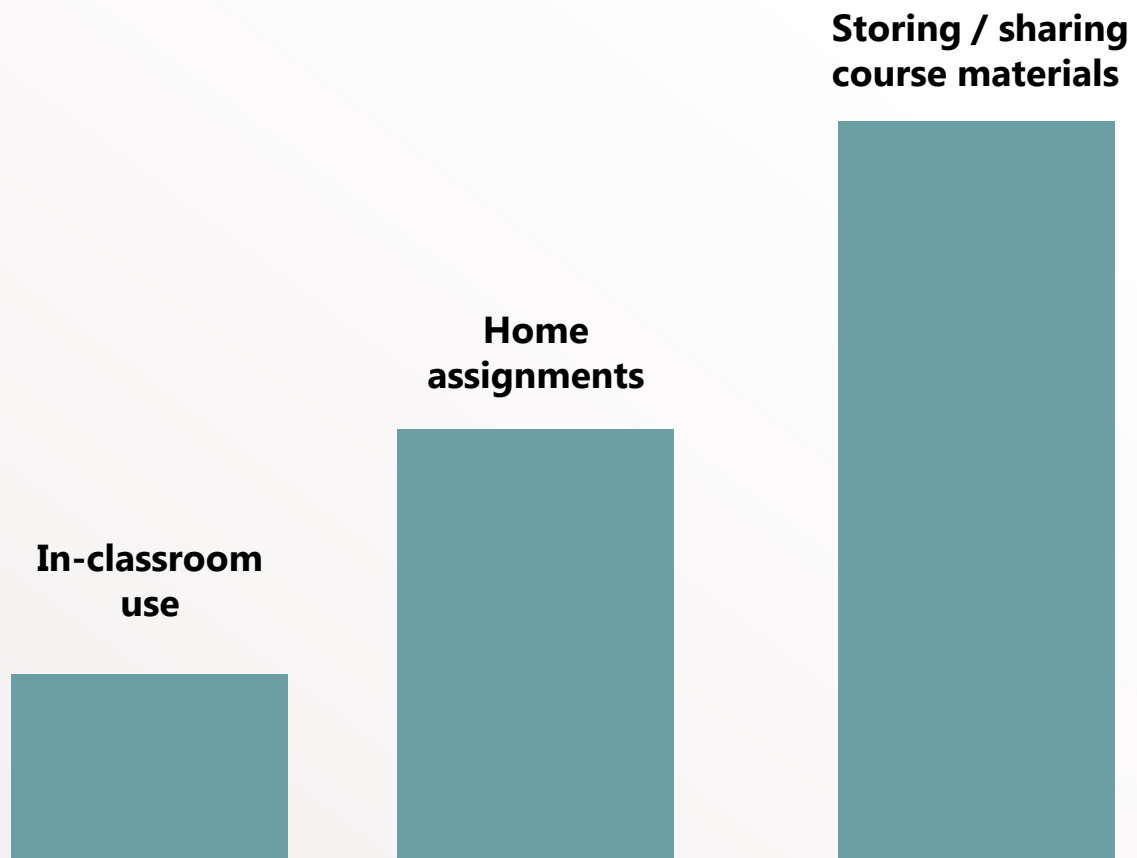

> 50 courses

Delivered via Moodle since 2011

> 1 400

Registered Moodle users

“

Moodle was excellent for my course management. I was able to *see if students has accessed the course materials, easily coordinate home assignments and create short quizzies for quick feedback.*

Our experience with Moodle

● 2016 Vocational education program

Accreditation

Grading system

Easier to follow progress

Formal education = Regulatory Documents

HOW FAR WE'VE COME

- Important part of educational process
- Facilitates the planning, content management and process administration
- Educator coordinaton
- Useful analytics

Our experience with Moodle

Success

- Acceptance
- We could do it
- Collaboration office for educators

Lessons learned

- Not meant for everything
- Collaboration for educators

OUR HOPES AND DREAMS 😊

- Our first **MOOC** (Massive Open Online Course)
- Preparing educators and developers
- Concept
- Format to use

Thanks!

Any questions?
